Title: Produktion

Brief description:

With its blend of practice-oriented topics from the spheres of technology and business, Produktion magazine reaches decision-makers of all levels in the manufacturing industry. These include brand-focused decision makers, production managers and production-related departments such as design and logistics (who decide what volumes to buy and which technologies to deploy) as well as directors and CTOs (who decide what to finance). Produktion supports you with extensive reports on trends and innovations from the world of industry, examples of practical applications, product innovations and new top technologies for the shop floor. Competitor and market analyses

help readers to make commercial decisions. Produktion magazine sets itself apart from other publications through its high proportion of self-researched articles and exclusive topics.

Target audience:

Produktion enables you to reach decision-makers of all levels in the manufacturing industry, from technical staff and operators to production managers and heads of departments integrated in the production process – such as product design and logistics – to directors and CTOs.

4. In the event of obvious defects, the customer must raise a complaint no later than two weeks after receipt of the invoice. In the event of non-obvious defects, the customer

must raise a complaint no later than one year after the release of the publication in question. In the event of improper printing of an advertisement despite flawless master copies being supplied on time and a complaint being raised promptly, the customer may demand that a flawless replacement advertisement be printed (cure). The claim to a cure is excluded if it would entail disproportionate costs for the company. If the company allows a reasonable period of time set to perform the cure to lapse away, the customer has the right to withdraw from the contract or claim for a price reduction proportionate to the level to which the purpose of the advertisement was impaired. Claims under guarantee asserted by business customers shall lapse within 12 months after publication of the advertisement or supplement in question.

5. If any defects are not immediately identifiable in the print documents and only become clear upon printing, the customer shall not be entitled to assert any claims for unsatisfactory printing.
 6. If the customer ignores the company's recommendations regarding the creation and transfer of digital print documents, the customer shall not be entitled to assert any claims for defective publication of advertisements.
 7. The customer is liable for ensuring that the files they supply are free from computer viruses. The company is entitled to delete files infected with computer viruses without this giving rise to any claims on the part of the customer. The company also reserves the right to assert claims for compensation if computer viruses cause further damage to the company.
 8. In relation to materials provided by the customer (bound inserts, supplements, etc.), the company assumes no liability for the accuracy of the quantity or quality of materials designated as having been delivered.

Audience Targeting

Reach B2B users in the Google display network.

Your benefit:

- Enhanced brand awareness through repeated targeting at different touchpoints
- Ad shown on all devices
- Low scatter loss as only users interested in a particular subject are targeted
- Large potential for generating new customers
- Performance boost – we will optimize the campaign and increase the frequency in the most successful channel
- Maximum control over your advertising spend thanks to precise evaluation of reach

For the best possible coverage, please provide us with a set of banners in the following formats: skyscraper, leaderboard, billboard, content ad.

Minimum order: 50,000 ad impressions

Price: 65.– EUR (CPT)

We will be happy to check whether the reach your desire is achievable.

This is how it works:

Users delve into their areas of interest on the specialist portal.

If users show interest in a particular subject area, they are flagged.

These specific users will now be shown your banners on the thematic channel booked, on their Facebook timelines and on the partner sites of the Google display network. This way you can reach your target market with great precision.

DEN AUTOMOBILBAU NEU ERFINDEN

Erfahren Sie mehr über die aktuellen Herausforderungen der Automobilindustrie sowie die neuesten Trends und Technologien.

Kostenloses Whitepaper: Den Automobilbau neu erfinden

Gesellschaftlicher, politischer und ökologischer Druck zwingen die Automobilindustrie zu einer Neuausrichtung. Elektrifizierung, kundenindividuelle Massenproduktion, Robotertechnik, Automatisierung und additive Fertigung verändern Fahrzeuge und damit auch die Fertigungsprozesse, die zu ihrer Produktion nötig sind.

In diesem Whitepaper erfahren Sie mehr über die aktuellen Herausforderungen, mit denen die Automobilindustrie heute konfrontiert ist. Außerdem erklären wir, wie moderne Technologien wie hybride Fertigung, Simulation und Automatisierung dabei helfen können, die nächste Fahrzeuggeneration schneller auf die Straße zu bringen.
