Title TECHNIK+EINKAUF

Brief description

TECHNIK+EINKAUF is the leading title for all decision-makers in the industrial procurement process. Not only does the cross-cutting magazine supply the information that buyers need, it also offers specialist insight into the procurement process for production and design engineering managers and company directors. Its reporting is focused on purchasing processes, innovations, technologies, products, procurement markets and overviews of suppliers and markets. This gives people involved in the purchasing process an informative headstart with practical applications for their day-to-day work. This target readership, which is growing in significance, is forced to deal with time, cost and quality pressures every day. With this in mind, the Editorial team always compose the exclusive content with a focus on the target audience and high journalistic standards. Market analysis and product information provide hard facts

while expert tips, practical examples and background information provide context for facts and figures and demonstrate their applicability. The concept of total cost of ownership (TCO) runs through the magazine like a golden thread.

Target audience	People involved in the procurement process in the fields of technical and strategic purchasing, design engineering and production as well as company directors.
